

# Cans and Cannots of *ViaLite's* RF over Fiber

RF over Fiber can do a lot, but it can't do everything...

## With RFoF, you cannot...

## But you can...

...swing your microphone around to reach ultimate rock star status.

RFoF provides wireless microphone systems and seamless audio transmission

1

...stream the big match without missing major moments.

RFoF offers 99.999% reliability

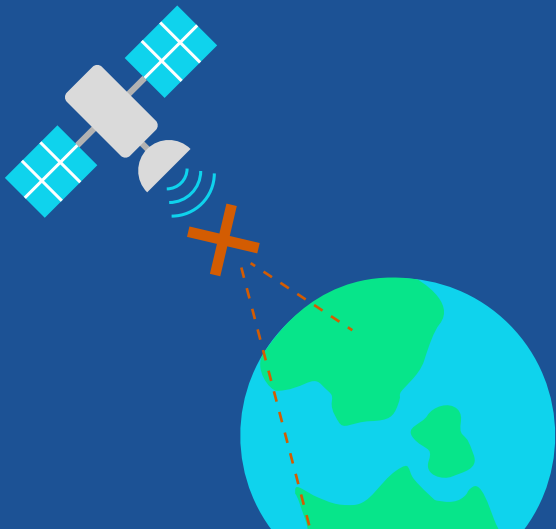

... avoid alien contact.

*ViaLite's* RFoF dynamic range detects tiny signals

2

...communicate easily with spacecrafts and satellites.

RFoF covers all required frequencies and reduces equipment needed at groundstation sites

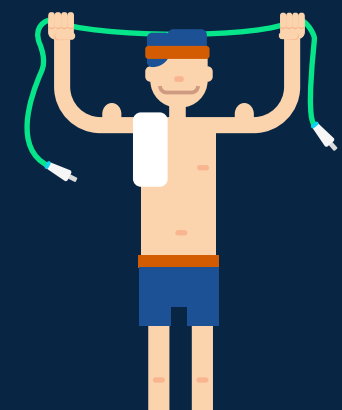

...achieve world domination by hacking a satellite.

RFoF is secure against signal interception

3

...immediately switch communications over in case of disaster.

RFoF offers offsite backup to reduce operational and financial damage

...brag about how much cable you can carry.

Unlike heavy coaxial cable, RFoF is lightweight and easy to carry to installations

4

...take it to yoga class.

The flexible fiber bends and moves easily

...count on a late train for a moment to say goodbye.

GPS systems supported by RFoF keep trains running right on schedule

5

...gain (...and lose...and regain) your fortune faster than ever.

RFoF supports ultra-fast, high-frequency trading at stock exchanges
